Checks found: **16** out of 18

- You made the user admin

Steps

1	Enter the value 'Roman' in the first name field
	Expected Result
	Value 'Roman' is entered successfully

Actual Result

The name 'Roman' has been accepted

2 Turn on the interception proxy tool and get back to the browser`s page

Expected Result

Interception utility started collecting requests from the browser

Actual Result

Interception proxy Postman has started collecting requests
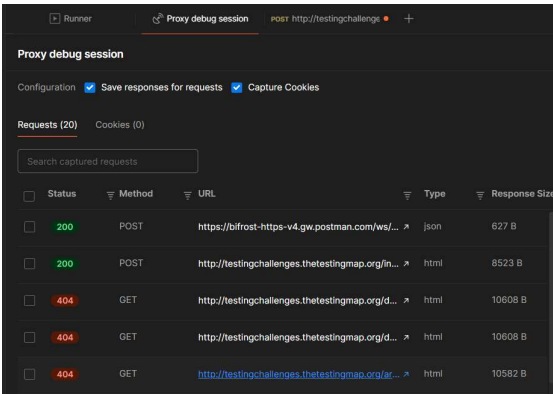

from browser

3 On the first challenge page, click the submit button

Expected Result

Submitted request is collected by an interception proxy

Actual Result

The submitted request was collected by interception proxy

4 Get back to the interception proxy, stop the interception process and open the POST request from URL:
http://testingchallenges.thetestingmap.org/index.php

Expected Result

Opened request body contains key fieldname with value 'Roman'

Actual Result

Body of the submited request has key firstname with value

Roman

5 Search for missing or extra keys in the request body

Expected Result

The opened body of the request does not contain any missing or extra keys

Actual Result

The request body has a lot of extra keys. The most intersting of them - user_right_as_admin with value 0.
